ATTENTION CLINICAL LABORATORY:

Enclosed is your license to operate as a Georgia State Clinical Laboratory. The license must be displayed in your place of business at all times. **Please note that the license does not include an expiration date and remains in effect until the license is suspended, revoked, limited or cancelled due to inactivity.** You will not be issued a new permit for each year of operation; however, initial applicants are required to become operational and begin providing clinical laboratory services within ninety (90) days of the effective date of licensure. If you fail to provide clinical laboratory services for a period of two years or more, the Department will consider your agency to have voluntarily closed. A new application approval process will be required for your agency to again provide Clinical Laboratory Services.

**Inspections; Fees; License Changes**

An initial inspection and occasional recertification inspections will be conducted by our office to determine compliance with the Rules and Regulations. Under state law, you are required to pay an annual license fee to the Department no later than December 31st of each year. Payment can be made through our website at <https://dch.georgia.gov/facility-licensure>. You are required to notify the Department and complete an electronic application at least (30) thirty days in advance of a change in the program's name, governing body, address, or services.

**Revocation**

Failure to correct deficiencies found during inspections, pay annual fees or assessed penalties, or failure to submit notification of license changes, may result in revocation of your license. Once a license is revoked, you may not be able to reapply or you may be required to wait a full year before reapplication.
