member's nearth history and measurements, exercise physiologists will determine it there are any contraindications to exe	tness test vill be
testing. If there are NO contraindications, member will perform a low back/hamstring flexibility test as well as an aerobic flexibility test as well as a flexibility test	vill be
on a cycle ergometer. The exercise intensity for the aerobic fitness test will begin at a level you can easily accomplish and v	
advanced in stages, depending on your fitness level. The instructor may stop the test at any time due to signs of fatigue or	
stop whenever you wish because of personal feelings of fatigue or discomfort.	•
Explanation of the Beginners Circuit:	
The Beginners Circuit is a guided one-on-one exercise session with a fitness instructor that will prepare novice exercisers to)
confidently navigate the fitness floor and use the exercise equipment safely and efficiently. The fitness instructor will teach	the new
member a total body functional strength routine including how to set up equipment, find the appropriate weight to use, a	nd
perform the movements. Changes and accommodations to the exercise routine will be made if necessary due to exercise	
contraindications/injuries.	
Risks and Discomforts:	
There exists the possibility of certain changes occurring during the test. They include abnormal blood pressure, disorder of	
heartbeat, and in rare instances, heart attack or death. Every effort will be made to minimize these through the preliminar	-
examination and by observations during testing. Emergency equipment and trained personnel are available to deal with ar	y unusual
situations that may arise.	
Benefits to Be Expected:	
The results obtained from the exercise test will assist us in determining the type of physical activities you might engage in the seconds.	vith no or
low hazards. Inquiries:	
Any questions about the procedures used in the assessment and/or beginners circuit and in the estimation of	
functional capacity is encouraged.	
Freedom of Consent:	
Your permission to perform the assessment and/or beginners circuit is voluntary. You are free to deny consent if you so de	sire. I
have read this form completely and I understand the test procedures that I will perform.	
I choose to <i>waive</i> my right to participate in the Assessment.	
I choose to <i>complete</i> the Assessment.	
I choose to waive my right to the Beginners Circuit with a Staff Member.
