Patient Information for Financial Assistance

The Financial Assistance Policy (FAP) of Navicent Health illustrates our commitment to our patients and the community we serve in providing world class care before, during and after treatment is received regardless of an individual's ability to pay. Our mission is to provide timely and appropriate financial assistance when patients meet the guidelines provided. Navicent Health offers financial assistance to eligible individuals and families who are uninsured, underinsured, ineligible for a government program or otherwise unable to pay for medically necessary care. Based on financial need, either reduced payments or free care may be available. Patients, or the person legally responsible for a patient's bill, may request financial assistance in regard to their obligation at any time before or during the billing process. Patients, or the person legally responsible for a patient's bill, may meet guidelines for full or partial assistance. Once the application and evaluation process has been completed, patients, or the person legally responsible for a patient's bill will be advised of the assistance determination. Those patients who do not qualify for financial assistance will be billed in accordance with NAVICENT HEALTH policy. Collection activity is conducted within the applicable rules and laws governing patient collections.

Patients requiring emergency or urgent medical care and pregnant women in active labor shall be treated without regard to their ability to pay in accordance with all applicable Federal regulations (Emergency Medical Screening, Stabilization, Treatment, and transfer).
