

Important Notice to Families with Children!

NO CHILDREN VISITATION POLICY DURING FLU SEASON

EFFECTIVE MONDAY, JANUARY 8, 2018

Effective immediately, children must be age 12 or older in order to visit The Medical Center, Medical Center of Peach County, Navicent Health Baldwin, and Rehabilitation Hospital.

According to the CDC (Centers for Disease Control), those between the ages of 0-12 are more likely to acquire and spread the flu and are more likely to be hospitalized.

With influenza circulating in the community and primarily affecting young people, along with the onset of seasonal flu, we are implementing a seasonal youth visitation policy for the protection of patients and visitors to their facilities.

In addition, we ask that any individual with flu-like symptoms or who has recently had the flu to be respectful of others, stay away from hospitals and other public places (school, work, theaters, etc.) and to stay at home.

The youth visitation policy will remain in effect throughout the current flu season, or until further notice.

Hospital officials express their appreciation to the community for their understanding and cooperation with these efforts to minimize exposure during this active flu season.

NORMA DE NO VISITACIÓN DE LOS NIÑOS DURANTE LA TEMPORADA DE LA INFLUENZA (FLÚ)

EN EFECTO EL LUNES, 8 DE ENERO DEL 2018

Efectivo inmediatamente, los niños tienen que tener 12 años de edad o mayor para visitar el hospital 'The Medical Center', el hospital 'Medical Center of Peach County', Navicent Health Baldwin, y el Hospital de Rehabilitación 'Rehabilitation Hospital'.

De acuerdo al CDC (Centros para el Control de Enfermedades), aquellos que estén entre las edades de 0-12 son los más propensos en adquirir y esparcir la influenza (flú) y son los más propensos a ser hospitalizados.

Ahora que la influenza está circulando en la comunidad y afectando principalmente a los jóvenes, además del comienzo de la temporada gripal, nosotros estamos implementando una política de visitas para los jóvenes durante esta temporada para proteger a los pacientes y los visitantes de las instalaciones.

Adicionalmente, pedimos que cualquier individuo con síntomas parecidos al flú ó que recientemente haya tenido el flú, sea respetuoso de otros y se mantenga alejado de los hospitales y otros lugares públicos (escuelas, trabajo, teatros/cines, etc.) y se quede en la casa.

La Norma de Visitación para Jóvenes se mantendrá actualmente en efecto durante toda la temporada de la influenza (flú), o hasta que haya una notificación adicional.

Los Oficiales del Hospital expresan su agradecimiento a la comunidad por su comprensión y su cooperación con este esfuerzo para minimizar ser expuesto durante esta temporada activa de la influenza (flú).
